REED INSTRUMENTS

The Right Source.
The Right Solutions.

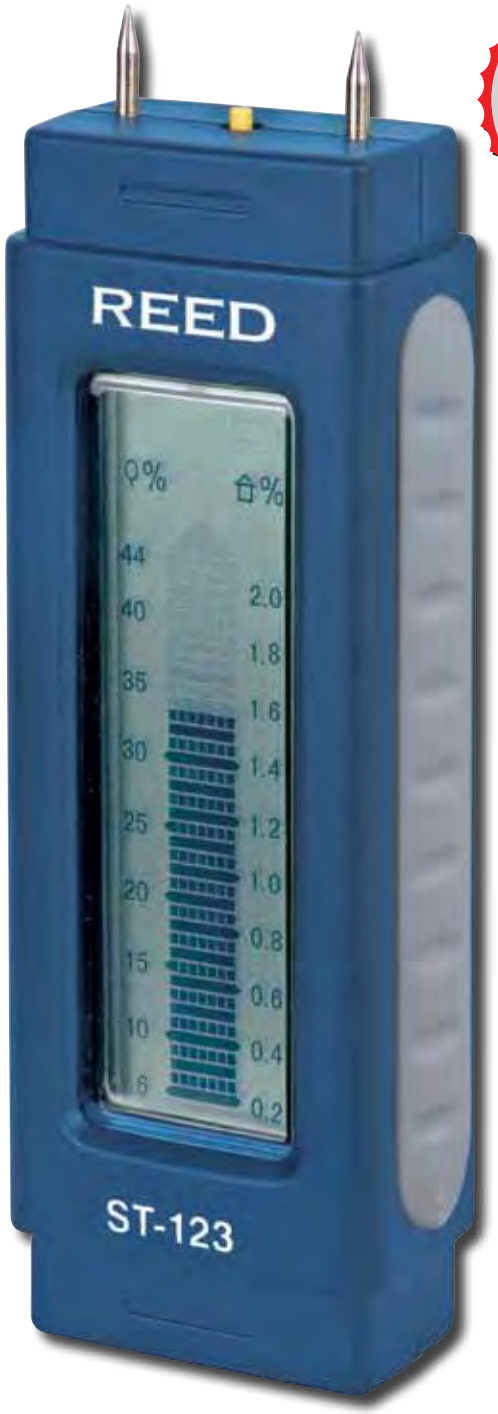
1 YEAR REED WARRANTY

MOISTURE DETECTOR

TECHNICAL DATA

FEATURES

- Measures the moisture content of sawn timber (also cardboard and paper) and hardened materials like plaster, concrete and mortar
- Average adjustment for European wood based on a wood temperature of 20°C
- Electrical resistance measuring principle
- Impact-proof plastic housing
- Auto power-off
- 8mm long integrated electrode pins are replaceable



NIST TRACEABLE CERTIFICATION Available!

SPECIFICATIONS

Measuring Range: Wood: 6 to 44% Moisture Content; Hardened Material: 0.2 to 2.0% Moisture Content
Accuracy: Wood: ±1%; Hardened Material: ±0.05%
Power Supply: 3 x CR2032 batteries
Dimensions: 130 x 40 x 25mm
Weight: 100g

ORDERING INFORMATION

ST-123 ..... Moisture Detector
ST-123-P ..... Replacement Electrode Pin
CA-52A .....Soft Carrying Case

ST-123-NIST ..... Moisture Detector & NIST
