Twister® LT Wire Connectors

It should come as no surprise that a wire connector with the Twister® name on it packs quality and performance – no matter the size. Twister® LT is designed for peak performance and maximum comfort on those big jobs in small spaces. Its unique, compact design makes it the perfect wire connector for any lighting installation or retrofit, as well as general electrical connections in tight electrical boxes. With its wide range this compact connector can cover the same ranges as gray, blue, orange, and yellow standard twist-on connectors as well as yellow wing-style connectors. Plus, the square-wire spring ensures the Twister® LT goes on quickly and provides a strong connection you can count on.

IDEAL wire connectors are the preferred connectors for professional electricians. Their comfortable grip and superior performance give the confidence that all connections are solid and reliable.

Can be applied using 1/4" hex drive

Swept-wing design for more comfort and better grip

Compact size for improved box-fill capacity
