

The Amprobe LT-10 Lamp Tester Goes From Your Pocket to Answers in Seconds.

Troubleshoot fluorescent lighting - bulbs, pins and voltage with one pocket-sized tool.

The Amprobe LT-10 Lamp Tester isn't just made for work. It changes the way work is done – instantly making your job more efficient, economical and effortless.

- Determine if fluorescent light bulbs are operational prior to installation or removal
- Verify voltage presence without the need for another tool
- Increase productivity by minimizing trips up and down a ladder
- All tests performed with easy, single button operation
- Ultra-compact design for portability
- Industry leading 48" removable, fully retractable antenna
- Visual and audible alerts for pin and voltage test functions.

Troubleshoot fluorescent lighting in 3 easy steps.

Step 1 Test bulb using LAMP TEST and PIN TEST

Step 2 Check voltage presence using VoltTect™ non-contact voltage detection

Step 3 If light is not working after verifying bulb and voltage (steps 1 & 2), replace ballast

FEATURE	LT-10
Compatible lamps:	T2, T4, T5, T8, T9, T10, T12, Fluorescent energy saving light bulbs
Test voltage:	Approximately 3 kV / 280 kHz
Field strength:	Approximately 100 μ V/m at 260 - 300 kHz
Maximum antenna length:	48"
VoltTect™ non-contact voltage detection:	AC 90 V to AC 600 V, 50/60 Hz to CAT II 300V, CAT I 600 V
Filament pin test:	T2, T4, T5, T8, T9, T10, T12

INCLUDED ACCESSORIES:
48" antenna, adaptor plate, user's manual, battery and carrying case
