

SecuriTEST™ PRO and SecuriTEST™ CCTV/Security Tester

- New features for SecuriTEST PRO**
- NEW** - IRE video level and sync tests
 - NEW** - Sound level test through integrated speaker and on screen level indicator
 - NEW** - High capacity lithium ion battery
 - NEW** - Support for additional PTZ protocols
 - NEW** - Carrying case included

- **Seven Essential CCTV Tools** – Combines a CCTV video tester, PTZ camera controller, Digital Multi-Meter, UTP cable tester, video test pattern generator, PTZ protocol analyzer and camera programmer in a single compact package.
- **Save Time & Money** – Test, aim, focus and program cameras when working alone. Save time by not having to walk back to the control center to verify functionality of each camera.
- **Compact Design** – Combines all the most needed—security tools in a lightweight, easy-to-carry unit. Sharp, bright 2.5in (6.3cm) color LCD screen with on-screen displays for PTZ control/diagnostics and DMM readouts.
- **PTZ Protocol Analyzer** – Compatible with 20+ PTZ protocols to test and program cameras in the field. Decodes and identifies output from PTZ console to aid in troubleshooting.

SecuriTEST™

SecuriTEST and SecuriTEST PRO are the most versatile all-in-one installation and troubleshooting tools for the CCTV professional.

CCTV installers often need to carry a variety of testing tools to complete their work. SecuriTEST combines the most-needed tools in one easy-to-carry package. Since all connections (video/communications/DMM) attach to a single unit, SecuriTEST eliminates the need to juggle several devices while on a ladder or lift, making working conditions safer and increasing productivity.

SecuriTEST™ PRO CCTV/Security Tester

SecuriTEST PRO adds to the already impressive capabilities of the SecuriTEST by including all the features of the original, plus IRE testing (video and sync levels), audio level testing, a high-capacity lithium ion battery in a package that's smaller and lighter than before. The SecuriTEST PRO has all the features and functionality that CCTV technicians need to install, test, and maintain analog security camera systems. SecuriTEST PRO also includes a custom carrying case (optional with the standard SecuriTEST).

SecuriTEST™ CCTV/Security Tester

The standard SecuriTEST offers a tester at a lower price point with all the key features installers need. The standard model omits the IRE and audio testing functions and operates from AA rechargeable batteries rather than a lithium battery pack but still includes a color monitor, PTZ controller with programming capability, protocol analyzer, pattern generator, DMM and UTP cable testing functions.
