Twister[®]
WIRE CONNECTORS LT

Twister® LT Wire Connectors

It should come as no surprise that a wire connector with the Twister® name on it packs quality and performance – no matter the size. Twister® LT is designed for peak performance and maximum comfort on those big jobs in small spaces. Its unique, compact design makes it the perfect wire connector for any lighting installation or retrofit, as well as general electrical connections in tight electrical boxes. The square-wire spring ensures the Twister LT goes on quick and provides a strong connection you can count on.

IDEAL wire connectors are the preferred connectors for professional electricians. The comfortable and superior performance give you the confidence that all of your connections are solid and secure.
