

Connected and protected

Designed specifically for above grade, interior/ exterior connections exposed to damp/wet and corrosive environments. WeatherProof™ connectors are pre-filled with a non-hardening, silicone-based sealant that protects against moisture and corrosion.

Easy to apply, pre-filled twist-on wire connectors

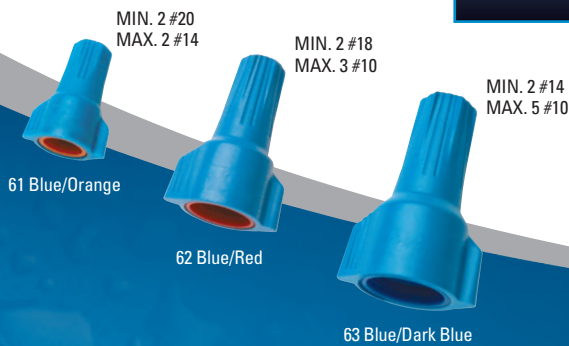

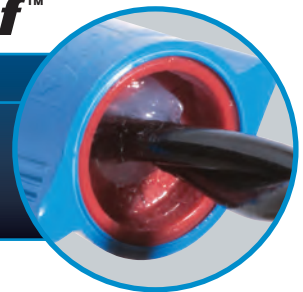

Swept wing design is built for comfort and efficiency

UL Listed to 486D for use in damp or wet above-grade locations

WeatherProof™

FAST FACT:

The silicone-based sealant protects electrical connections against harsh conditions, eliminating the need for heat-shrink or excessive taping.
