Measure plans the fast, accurate way with the Scalex PlanWheel™ SA2. Here is the perfect tool for taking scaled measurements from blueprints, maps, and plans. Just select the built-in scale factor to match the plan and roll the PlanWheel SA2. The measurement is displayed instantly. The PlanWheel SA2 is a Stand-Alone model. It does not interface with your computer.

- 111 built-in and thousands of available user-defined scale factors. Includes all common scales - imperial and metric too
- Calculate auto-scale factor from reduced, enlarged or odd-scale drawings
- Measures in inches, feet, yards, miles, centimeters, meters, and kilometers.
- Calculates square and cubic dimensions for regular areas and volumes
- Counter and adder buttons on probe tip let you count items or add fixed lengths as you scale
- Create, store and retrieve 2 user-defined scale factors
- Clear, audible tone indicates wheel movement
- Automatic shut-off assures long battery life
- Low battery indicator
- Plus minus (+ -) mode allows user to simply back-up to deduct an over-rolled measurement
